

Write an algorithm to print number of nodes

09 August 2020 07:13 PM

count(start)

```
If start = null
    Print empty list
    Exit
Endif
Counter = 0
Ptr = start
Repeat
    Counter = counter + 1
    Ptr = ptr -> address
    If(ptr -> address = null)
        Exit
    Endif
Endif
Print counter
```
